**"If a juror accepts as the law that which the judge states, then that juror has accepted the exercise of absolute authority of a government employee and has surrendered a power and right that once was the citizen's safeguard of liberty."**(1788)

(2 Elliots Debates, 94, Bancroft, History of the Constitution, 267)

Sixty to a hundred years ago this bill would have been unnecessary. Our school systems back then were doing an excellent job of teaching on the constitution , and the part that we were to play as citizens . Teaching about our duties As citizens of a republic was part of class curriculum . Unfortunately the schools now are more interested in teaching Johnny has two mothers , and how to put a condom on a banana .

The base of power is to remain in we the people , but unfortunately , it has been undermined by those leaders acting in the name of gov't , such as politicians( Rinos and democrats ), bureaucrats , judges, Lawyers,. As a result these United States have begun to operate as a democracy instead of a Republic . **John Adams said and I Quote ("remember, democracy never lasts long. It soon wastes, exhausts, and murders itself" )unquote**

**Thomas Jefferson said, quote "I consider trial by jury as the only anchor yet imagined by man, by which a government can be held to the principles of its constitution." unquote**

A Republic is a three vote system . Three votes to check tyranny, not just one as in a democracy . Unfortunately most Americans remain ignorant of their other two votes . The first vote is on election day. The second vote comes when you serve on a grand jury. A grand juries purpose is to protect the public from an overzealous prosecutor .

The third vote is the most powerful vote , this is when you are acting as a jury member during a courtroom trial . It is here that you have more power then the president , all of Congress , and all of the judges combined .

Unfortunately it is here where our people are being deceived , both by not being informed or being Directly lied to by those lawyer's in the black dresses . Am I saying that all judges are contemptible ? Definitely not . But those that are usurping powers that are not there's are destroying freedom in America . (" (James Madison, June 8, 1789) Further, the jury's veto power protects minorities from "the body of the people, operating by the majority against the minority.)unquote. This bill may be one of the most important ones that you act on this year . Vote for freedom , Vote to protect this Republic . Vote to pass this bill .

Thank you
